

Tip-Top Typing

A Look at Python's Type System

By Pat Viafore

Hosted by

HUDSONALPHA
INSTITUTE FOR BIOTECHNOLOGY

601 Genome Way, Research Park

Friday, Nov. 8th

11:30-12:30

Pat Viafore will be talking about the typing system in Python. We'll look at what types are and how Python handles them. We'll also take a dive into mypy and type hinting, introduced into Python 3.5. We'll delve into features that you can use regarding type hinting, even some newly available 3.8 features.

Pat is an organizer for **HSV.py** and a Software Engineer at Canonical. You can follow him on Twitter **@PatViaforever**.
